

Aura 1m Race Track Mirror with Integrated LED Colour-Shifting Backlight and Anti-Fog Technology

SKU: 190779

$895.00 (inc GST)

Details

Aura mirrors provide a stunning backlit effect that gives the appearance that the mirror is floating off the wall. They are a stylish addition to bathrooms, powder rooms, dressing areas, or a versatile option to light a dark hallway. Not only do they add a touch of elegance to your space, but they also offer exceptional functionality with dimmable integrated lights, adaptable colour temperatures, touch control and splash-proof IP44 rating for peace of mind in wet areas. Aura also includes an integrated anti-fog element that eliminates heavy condensation from the glass, ensuring your mirror stays fog-free when you need it most. The entire Aura range of mirrors includes an integrated touch button - Tap the touch button to adjust the brightness between 3 settings or tap and hold the touch button to cycle the colours between Warm, Cool or Daylight to suit your mood or use. Aura also has a memory, so once you've set your favourite colour and brightness, you can simply turn it off – knowing your chosen settings will be there for you when you next turn your Aura on. Whether installed in a family bathroom for ambient face level lighting or as a stylish addition to a moody powder room – Aura will be a welcomed inclusion to your décor.
