

1 Metre Track in White V2

SKU: 149053

\$69.95 (inc GST)

Details

The Track II lighting system provides a flexible track lighting solution designed for modern interiors. Available in black or white, the range includes track lengths, joiners and components that allow multiple lighting configurations to suit different spaces. The system is offered in 1 metre and 2.4 metre track lengths and can be expanded using a range of compatible joiners including straight, 90-degree, centre feed, T and X connectors. These components make it easy to create customised layouts that adapt to room shapes and lighting requirements. Constructed from durable metal, the Track II system features an updated design with improved safety and compliance features. It is compatible with track lights that use the new track adaptor design, ensuring seamless integration across the range. Ideal for kitchens, open-plan living areas and hallways, the Track II system allows lights to be positioned exactly where they are needed, offering a practical and adaptable lighting solution for both residential and commercial settings.
