

Cali 3-in-1 Bathroom Heater, Exhaust Fan and Light in White with 4 x 275W Heat Lamps

SKU: 209121

Details

The Cali 3-in-1 bathroom heater is a compact and stylish solution for small bathrooms, ensuites, and other modest spaces, combining heating, lighting, and ventilation in a modern, low-profile ceiling-mounted design. Two replaceable 275W radiant heat lamps provide direct, infrared warmth—ideal for drying off on cold mornings by gently heating your skin and body rather than just the air. Positioned above the drying area, it offers everyday comfort where it's needed most. A 12W cool white LED globe delivers bright, clear illumination, while the built-in exhaust fan helps manage steam and humidity. IPX4 rated for safety in wet areas, it works with 125mm ducting (1.5m included), includes a backdraft stopper to prevent unwanted air return, and features a removable faceplate for easy cleaning. Installation is simple with durable pivot clamp clips, and a 4-gang wall switch is included for convenient, separate control of each function.

TIP: For enhanced air extraction, pair this unit with a standalone exhaust fan placed directly over the shower. A remote control is also available separately. Need help choosing the right setup? Our team uses a handy airflow calculator to guide you.

Certified Airflow Performance

This fan has been tested to the internationally recognised ISO 5801 standard, ensuring its airflow performance is accurately measured and validated in real-world applications.

Specifications

SKU	209121
