

Abacus 8 Light LED Colour-Shifting Linear Pendant in Bronze with Sepia Glass

SKU: 028156

Details

The Abacus collection is a celebration of form and function, where clean, minimalist lines are softened by varying-sized orbs of light. The 8-light linear pendant brings this distinctive mid-century-inspired aesthetic to a carefully considered configuration. Its sleek horizontal rod and balanced arrangement of varying-sized glass orbs create an architectural feature with a gentle spread of light.

The linear form is perfectly suited to the focused lighting requirements of kitchen islands and long benchtops, while also providing broad ambience above dining tables. Its balanced design makes a statement without overwhelming the space.

The bronze finish with sepia glass creates a deeper connection to mid-century style, bringing warmth and nostalgia to the room without losing the architectural simplicity of the design.

For a different expression of the same design, choose textured black with frosted opal glass for a bold, graphic presence, or aged brass with gloss opal glass for a softer, more refined aesthetic.

The Abacus collection features integrated energy-saving LEDs with a choice of Extra Warm White (2500K), Warm White (3000K), or Neutral White (3500K). The preferred colour temperature is selected using the toggle switch on the fitting and must be set at the time of installation.

The Abacus collection is also available as a dramatic 16-light multi-drop pendant for voids and tall ceilings, a 7-light flare pendant with adjustable arms for a sculptural centrepiece, and a versatile 3-light design that can be installed as a pendant or wall light.

Specifications

SKU	028156
Colour/Finish	Bronze/Sepia Glass
Dimmable	Yes
Globe Type	Integrated LED
Globe Quantity	0
Wattage Max	38W

Kelvins	2500K/3000K/3500K
