

# Abito 1 Light DIY Batten Fix in Ribbed White Gypsum

SKU: 090406

$99.95 (inc GST)

**Details**

The Abito batten-fix fitting features a sculptural gypsum shade with a delicately ribbed profile, creating a refined ceiling statement with subtle texture. It supports a larger format globe – such as a G95 – allowing the globe to become a considered design feature within the form. The trumpet-inspired silhouette offers a soft architectural presence reminiscent of a plaster ceiling rose. The gypsum material provides a matte, organic finish suited to bedrooms, hallways, laundries and general living spaces. The Abito batten-fix fitting delivers a balanced combination of form and function for modern interiors.
