

# Contour Round Mirror Frame Only in Brushed Chrome

SKU: 190835

## Details

**Contour Mirror Frames**

Transform the look of your Contour mirror with interchangeable frames, crafted to enhance its sleek, minimalist design. These optional frames—available in bronze, black, aged brass, and brushed chrome—allow you to customise your mirror to complement or contrast with your bathroom's tapware and hardware. Please note that the base mirror is sold separately and comes with a standard white frame.

Designed for a perfect fit with the Contour mirror collection, these frames offer effortless sophistication and adaptability. Whether you prefer the classic warmth of aged brass, the striking contrast of black, or the subtle refinement of brushed chrome, the frames make it easy to personalise your space. Paired with the mirror's high CRI lighting and advanced Colour Shift technology, the frames complete your ideal bathroom lighting solution.

**TIP:** Create a cohesive look by matching your frame to your tapware, or mix metals—such as a black frame with brass fixtures—for a bold, unique design statement.
