

Festoon II 20 Light LED Exterior String Light Kit in Black with Warm White

SKU: 220991

Details

Transform your entertainment area with the much loved Lucci LEDlux festoons string lights. These festoon lights are entirely DIY and made from robust and durable rubber to stop deterioration and stretching over time. The warm white LEDs set the mood right with the right illumination level for comfort and reduced glare. These Festoons have the ability to combine two strands to make longer lengths. There is a 5 meter fly lead distance from the driver to the first light, and then the lights are spaces at 1 meter intervals.

Specifications

SKU	220991
Colour/Finish	Black
Ip Rating	IP65
Globe Type	Integrated LED
Globe Quantity	20
Wattage Max	10W
Kelvins	3000K
Lumens	150
Efficacy	15
Colour Temperature	Warm White
Location	Coastal Use
Material	Acrylic
Warranty	3 years
Brand	Lucci
Style	Modern
