

Glow Classic 10m Wiring Extension

SKU: 177745

$59.95 (inc GST)

Details

The GLOW Classic 10m Wiring Extension provides additional cable length for GLOW Classic single-colour strip lighting installations. Designed for use where the power supply needs to be positioned further away from the LED strip, or where strip lighting is installed across larger or separated areas, this accessory helps create a more flexible lighting layout.
Includes 10 metres of 2-core round cable, 5 x cable-to-cable connectors and 2 x cable-to-LED strip connectors.
Compatible with GLOW Classic strip lighting kits: SKU 177735, 177736, 177737, 177738, 177739 and 177740.
Ideal for connecting LED strip lighting across multiple kitchen cabinets, bulkheads, joinery, entertainment units, staircases, hallways, wardrobes, walk-in robes and display shelving.
