

Glow Classic 5x1m Wiring Extension Leads

SKU: 177746

Details

The GLOW Classic 5 x 1m Wiring Extension Leads provide secure DIY connection points for GLOW Classic single-colour strip lighting installations. Designed to connect between the splitter and LED strip, these 1-metre 2-core extension cables are ideal for creating separated lighting sections across cabinetry, shelves, wardrobes and other joinery applications.
Includes 5 x 1-metre extension cables.
Compatible with GLOW Classic strip lighting kits: SKU 177735, 177736, 177737, 177738, 177739 and 177740.
These leads can be extended further using the GLOW Classic 10m Non-Dim Wiring Extension, giving added flexibility for larger or more complex strip lighting layouts.
