
Alby 2.2m LED Colour-Shifting Pendant in Teak with Brass Details

SKU: 020622

$1,295.00 (inc GST)

Details

Alby combines the perfect combination of colours and textures to create a sleek, minimalist design that will look incredible in your home. The Alby pendant is available in either warm walnut that is beautifully balanced with bronze details, or a delicate teak finish elevated by the brushed brass look, as well as two different lengths. This pendant features the popular linear design, but instead of a square profile as others feature, the Alby has a round timber pipe, adding a refreshing new twist to a classic silhouette. With dimmable, colour shifting technology, the Alby is not only stunning aesthetically but is also incredibly practical for your home.
