The Lucent flush is designed to take only the 128mm GX53, which is currently available in 12W (1100LM) and boasts a 3-step dimming function, giving you complete control over your lighting. Its petite size and elegant design make it a versatile piece that can also be used as a wall light, adding a touch of sophistication to any space. However, please note that it is not IP rated and is therefore unsuitable for use above showers or in close proximity to vanities.
Experience the beauty of alabaster and brass with the MBM Lucent 1 light flush, a must-have for those seeking a touch of elegance in their home.
Alabaster is a naturally occurring material, so there will be slight variations in colour and pattern which makes every piece unique.
