

Mett IP XL Round High Performance Exhaust Fan with 295mm Dia Cut Out in White

SKU: 209050

$259.00 (inc GST)

Details

Certified Airflow Performance

This fan has been tested to the internationally recognised ISO 5801 standard, ensuring its airflow performance is accurately measured and validated in real-world applications.

The Mett IP XL water-resistant exhaust fan is a premium choice for larger bathrooms and ensuites—combining powerful airflow with a clean, matte finish and high-efficiency performance. Designed for direct installation above showers, its IPX4 rating ensures safe use in wet areas, while the built-in backdraft stopper prevents the return of air, pests, and odours. The minimalist fascia and larger form factor make it ideal for spaces that need extra ventilation without compromising on style. It works with 150mm ducting (sold separately) and installs easily using durable pivot clamp clips and a flex plug and lead for a fast, straightforward setup. This centrifugal-style fan offers robust extraction to help reduce steam and moisture for a fresher, more comfortable environment. A remote control is also available separately for added convenience.

TIP: For enhanced moisture control, add a run-on timer (sold separately) to keep the fan running after use—helping reduce condensation and the risk of mould. Not sure which fan is best for your space? Speak to our team—we use a handy airflow calculator to help you pick the right model.

Specifications

SKU	209050
Colour/Finish	White
Airflow	600m3/hr
Globe Included	false
Globe Quantity	0
Voltage	240V
Fan Motor Wattage	65

Decibels	44.3
Rpm	0
Brand	Lucci
Style	Modern
Warranty	3 years
