

Parsec Large DC Exhaust Fan with 300mm Dia Cut Out in White

SKU: 200083

Details

Sleek and effective, the Parsec large exhaust fan is designed for small to medium-size bathrooms, ensuites, and laundries where reliable ventilation is key. With a minimalist matte white finish and low-profile design, it blends seamlessly into the ceiling while quietly removing steam and odours. Powered by an energy-efficient DC motor, it delivers consistent airflow suited to wet areas without overpowering the space. The fan installs easily with durable pivot clamp clips and offers flexible ducting options (100mm or 150mm) to suit your setup. IP24-rated for safe use in wet zones, it's a practical and stylish solution for everyday ventilation.

TIP:

For enhanced moisture control, add a run-on timer (sold separately) to keep the fan running after use—helping reduce condensation and the risk of mould. Not sure which fan is best for your space? Speak to our team—we use a handy airflow calculator to help you pick the right model.

Certified Airflow Performance

This fan has been tested to the internationally recognised ISO 5801 standard, ensuring its airflow performance is accurately measured and validated in real-world applications.
