

Project Wall Exhaust Fan with 150mm Dia Cut Out in White

SKU: 209091

$99.95 (inc GST)

Details

The Project Exhaust Fan with Run-On Timer is a practical, wall-mounted solution for compact bathrooms, laundries, and other humid spaces with no ceiling cavity. Designed for direct installation onto an external wall, it's ideal where ceiling-mounted exhaust fans can't be used or as a straightforward upgrade for an old, tired unit. Its flat fascia and matte white finish create a clean, unobtrusive look that suits any interior. A built-in adjustable run-on timer (1 to 30 minutes) ensures ventilation continues after the switch is off—helping manage lingering moisture and reduce the risk of mould. Available in two sizes with 100mm or 150mm cut-outs, it's a simple, everyday choice for essential air extraction in tight spaces.

TIP:

Ensure airflow into the room is unrestricted for best results. Not sure what size or style fits your needs? Our team uses a handy airflow calculator to help guide your decision.

Certified Airflow Performance

This fan has been tested to the internationally recognised ISO 5801 standard, ensuring its airflow performance is accurately measured and validated in real-world applications.
