

Reef 200mm Round Exhaust Fan with 240mm Dia Cut Out in White

SKU: 209033

Details

The Reef small exhaust fan is a compact, dependable solution for ventilation in small bathrooms, ensuites, laundries, and powder rooms. With a minimalist white fascia, it blends seamlessly into ceilings while quietly managing steam and odours. Designed for balanced airflow, it offers reliable everyday performance in smaller wet areas. Installation is quick and simple with swing clamp clips, a 240mm cutout, and a plug-in design. Suitable for 100mm ducting, it connects easily to standard ventilation setups. A built-in backdraft stopper prevents the return of unwanted air and odours, while a thermal cut-off switch adds peace of mind. With an IP22 rating, it's a smart, subtle addition to compact spaces.

TIP:

For enhanced moisture control, add a run-on timer (sold separately) to keep the fan running after use—helping reduce condensation and the risk of mould. Not sure which fan is best for your space? Speak to our team—we use a handy airflow calculator to help you pick the right model.

Certified Airflow Performance

This fan has been tested to the internationally recognised ISO 5801 standard, ensuring its airflow performance is accurately measured and validated in real-world applications.
