

Reef 250mm Round Exhaust Fan with 290mm Dia Cut Out in White

SKU: 209031

Details

The Reef large exhaust fan offers a dependable ventilation solution for bathrooms, laundries, and kitchens—perfect for everyday use in smaller to medium-sized spaces. Its minimalist white fascia sits cleanly within the ceiling, blending into modern interiors while helping manage moisture and odours. Designed for balanced airflow, it provides steady, reliable performance to maintain a fresher environment. Installation is quick and simple thanks to swing clamp clips, a 290mm cutout, and a plug-in design. A built-in backdraft stopper prevents re-entry of air and odours, while a thermal cut-off switch provides added safety. With an IP22 rating, it's suitable for damp environments where quiet, effective extraction is essential.

TIP:

For enhanced moisture control, add a run-on timer (sold separately) to keep the fan running after use—helping reduce condensation and the risk of mould. Not sure which fan is best for your space? Speak to our team—we use a handy airflow calculator to help you pick the right model.

Certified Airflow Performance

This fan has been tested to the internationally recognised ISO 5801 standard, ensuring its airflow performance is accurately measured and validated in real-world applications.
