

Tamarind 600mm Oval Handcrafted Linen Shade Only in Ivory

SKU: 011881

Details

Born out of a collaboration with local artisans, women's community collectives and small batch cottage industries, the Tamarind collection is a loving expression of Indonesia's rich artistic heritage. Tamarind is a unique range of flat-pack shades that are handmade in Indonesia, and are available in a variety of shapes and sizes, as well as two colours of ivory and natural. Our Tamarind range is perfect for an organic, natural, or Japandi look. Pair this handmade shade with a range of suspension options to create a feature piece that transforms your space into one of tranquil luxury.
Due to the handmade nature of these shades, slight variations in size and colour can occur. Accessories and electrical components sold separately.
The Tamarind range is compatible with the following suspension options:
For best results, we recommend attaching these shades to the Create pendant range (available in Black and White) using a Cord/Shade Suspension Connector (available in Black and White). This allows you to position the Globe in the centre of the shade. They can also be attached directly to the Create II range (available in a range of colour options) or the Manor pendant range (available in Antique Brass, Black or Antique Nickel)
