

# Bayside Delta 122cm DC Close to Ceiling Fan with Light in White

SKU: 213038

**Details**

The Bayside Delta close-to-ceiling fan offers a simple, low-profile design that is ideal for bedrooms and spaces with lower ceilings. Available in both 122cm and 142cm sizes, its clean three-blade silhouette and compact cylindrical motor housing suit a wide range of contemporary interiors while maintaining a minimal visual presence.

Constructed from durable ABS and rated for coastal environments, the Delta is suitable for indoor and covered outdoor areas where reliable performance is essential. The fan includes a wall control for straightforward operation and is compatible with an optional GX53 light kit, allowing lighting to be added where required. With efficient DC motor technology, quiet airflow and a practical close-to-ceiling design, the Delta delivers everyday comfort and functionality at an accessible price point.

**Low Profile**

Low profile fans that fit your space are necessary if your home has low ceilings. Some of these ceiling fans only protrude 19.5 cm from the ceiling, allowing them to sit flush against the ceiling. This makes the space safer for everyone in your house and makes it appear less cluttered and more open.

**DC Motor - Efficient, Cost Saving, and Quiet**

The most energy-efficient ceiling fans on the market right now are DC or direct current, fans. The key to their improved airflow and low energy consumption is their motor, which also helps you save money on your electricity bill. Since the motor is small and light, DC ceiling fans have sleek designs that fit better in your interiors and cost just one cent an hour to run.

Additionally, they are silent in operation, making them ideal for private spaces in your house like the bedroom. You have a lot of versatility with the speed settings of DC fans, which range from a light breeze to an extremely intense airflow.

**Wall Switch**

3-speed wall switch included.

**Optional Light**

Versatility to use light with GX53 globe (sold separately), or use included cap to cover the socket for a no light option.

**Coastal Rating**

Suitable for indoor, alfresco, and coastal areas provided the fan is fully undercover, protected from water, wind, and dust, with

a minimum of 1 wall.

**Recommended Room Size**

For rooms up to 3m x 3m, we recommend a 122cm fan or lower.

**2 + 4 Year Warranty**

We provide a 2-year in-home warranty on all Bayside fans plus a 4-year parts replacement warranty from the date of purchase.
