

Bulrush 12/24V LED Bollard in Black

SKU: 221100

Details

The Bulrush bollard offers a unique, nature-inspired design for contemporary garden lighting. Finished in black with an amber glass shade, it emits a soft 2200K extra-warm white glow – ideal for creating a relaxed outdoor atmosphere. Engineered for versatility, the upper stem is flexible, allowing it to bend gently with the wind like a real bulrush. The staged rod design enables installation at three different heights, while the choice of flat plate or garden spike makes setup easy across various surfaces. With coastal-rated durability, an IP65 rating and DIY quick-connect wiring, the Bulrush combines form and function for distinctive, low-glare illumination. Backed by a 5-year warranty.

Specifications

SKU	221100
