

Calido Flare Shade Only in Tan Hessian

SKU: 018402

$495.00 (inc GST)

Details

Made in Spain

Blend timeless elegance with modern allure. The Calido collection, handcrafted in Spain from superior materials, offers sophisticated and elegant light shades. Calido shades are designed to make a bold statement and have a striking presence. Handmade by experienced artisans with over 50 years of expertise, each shade reflects the meticulous craftsmanship and calming Mediterranean style Spanish design is known for. With Calido, you bring home a small piece of Spain.

Calido shades come in two silhouettes - the flare and the tall. The tall shade is ideal for elevated spaces that need a captivating focal point. It adds height and a stunning frame to any room. Alternatively, the Calido flare shade has a mid-century-inspired design that exudes timeless elegance.

Flare shades are available in three colourways - white linen + bleach hessian, natural linen + tan hessian, and all tan hessian - while the tall shade comes in white linen, natural linen, or tan hessian.

To complete your desired look, pair these exceptional shades with our Create II mix-and-match suspensions and finishing kits. You can choose a cord that complements the shade, creating a harmonious ensemble. Or, go for a contrasting cord to add visual interest and make a statement.

The Calido shades are also compatible with the Create Pendant range (available in Black and White) when using a Cord/Shade Suspension Connector (available in Black and White).

Elevate your interior decor with the Calido collection, where impeccable craftsmanship, Mediterranean charm, and endless design possibilities come together.
