

Caspian 1 Light LED Wall Bracket in Textured White

SKU: 309221

Details

Caspian wall lights are designed to elevate your interior with an exquisite Mediterranean-inspired touch. Crafted into a delicate scalloped-shaped shell, these wall lights create a mesmerising play of light and shadow. Available in three alluring finishes - chalk white, aged brass, and rustic rust - the Caspian wall lights offer distinct characteristics for different styles.

A beautiful orb of light is positioned inside the scalloped shell shade to cast a subtle backlit effect, adding depth and creating a truly stunning focal point in your space.

The chalk white and rustic rust finishes feature a heavily textured surface, providing an intriguing speckled look that adds a touch of rustic, organic charm to your space. This texture creates a sense of drama and uniqueness in your decor, setting a distinct tone.

On the other hand, the aged brass finish presents a different aesthetic, offering a more classic look. The brass finish adds a timeless elegance that complements traditional and formal interior designs.

The Caspian wall lights also provide the convenience of adjustable lighting with the integrated correlated colour temperature (CCT) function, allowing you to easily control the colour temperature of the light using a standard wall switch. Additionally, these wall lights feature dimmable LED technology, providing the flexibility to set the perfect lighting level for any occasion.

For a cohesive lighting scheme, consider pairing these wall lights with the matching pendant. Elevate your interior with the Caspian wall lights, where texture, drama, and Mediterranean-inspired design blend harmoniously, allowing you to create a personalised atmosphere that reflects your unique style and taste.

Specifications
