

Caspian 3 Light LED Colour-Shifting Drop Pendant in Rust Finish

SKU: 028205

Details

Caspian drop pendants are designed to elevate your interior with their exquisite Mediterranean-inspired design. These pendants feature three elegantly curved arms that gracefully support delicate scalloped-shaped shells, creating a mesmerising play of light and shadow.

Available in two finishes - chalk white and rustic rust - the Caspian drop pendants showcase a distinctive, heavily textured surface for an intriguing speckled look. This texture adds drama and a touch of rustic character.

Enhancing the overall impact, the beautiful orbs of light positioned inside each scalloped shell shade cast a subtle backlit effect, adding depth and creating a truly stunning focal point in your space.

With Caspian, you experience the convenience of adjustable lighting with the integrated correlated colour temperature (CCT) function, allowing you to easily control the colour temperature of the light using a standard wall switch. Additionally, these pendants feature dimmable LED technology, offering the flexibility to set the perfect lighting level for any occasion.

Versatile in design, the Caspian drop pendants are suitable for angled ceilings, ensuring seamless integration into various architectural configurations.

For a cohesive lighting scheme, consider pairing these pendants with matching wall sconces.

Elevate your interior with the Caspian drop pendants, where texture, drama, and Mediterranean-inspired design blend harmoniously.

Specifications
