Details

Give your space a delicate floral refresh with the Celia Loves Room Spray in Neroli + Honeysuckle. This 50ml home fragrance spray reimagines the brand's Japanese Honeysuckle scent with the warm, green character of a sweet flowering vine and a light floral musk. Hand-poured on Victoria's Surf Coast, it offers a simple way to bring a softly sweet mood to your home.

Your Fragrance Experience

Bright notes of white tea, red berries, mandarin and sweet orange introduce the fragrance. Cassis, ylang-ylang, rose and green leaves form its floral heart, while cedarwood and vanilla add a gentle, rounded base. The result is delicate and sweet, with the fresh character of spring blooms.
