

Chameleon Tall Tile Frame Only in Black

SKU: 197106

Details

Exclusive to Beacon, Chameleon is the world's first customisable wall light design that incorporates a tile. Like its namesake, the Chameleon has the ability to subtly and elegantly blend into your wall using its unique tile frame and your own bathroom tile, or use the ultra-slim metal fascia for a more minimalist look.

Mix Blend with the Chameleon Tile Frame

Create a wall light that perfectly matches your bathroom style in a few simple steps:

1.SELECT YOUR WALL SCONCE*

Take your pick from brass, white or black.

2.SELECT YOUR TILE FRAME

Choose the finish that best complements your bathroom tiles and fixtures.

3.INSERT YOUR OWN TILE

Insert your own subway tile (300mm x 75mm, up to a maximum depth of 15mm) into the tile frame.

Alternatively, your tiler will be able to cut any tile to size for you!

Need a tile for your Chameleon light? Visit our friends at TileCloud to pick one that matches your bathroom style.

MORE THAN TILES

The Chameleon's simple frame structure allows you to use any fill you like. Have a piece of timber that matches your vanity? Or paint a piece of Gyprock plasterboard to match your wall. The choices really are endless! Just make sure your fill is less than 5kg in weight and can withstand the moist and warm environment in a bathroom.

About the Chameleon LED Wall Sconce*

The Chameleon features a light output of 320 lumens and an IP44 rating, making it suitable for splash-prone spaces like the bathroom vanity or around the shower. Whether you want to create a vibrant feel for your morning routine or a relaxing vibe at the end of the day, simply switch between colour temperatures and brightness levels to customise your ambience.

**Chameleon LED Wall Sconce sold separately.*
