

# Climate IV 132cm DC Close to Ceiling Fan with Light in White

SKU: 216132

$495.00 (inc GST)

**Details**

The Climate IV CTC ceiling fan range combines the clean, contemporary styling of the Climate IV collection with a close-to-ceiling design suited to rooms with lower ceiling heights. Available in white, antique nickel with teak blades, and aged brass with walnut blades, the range offers a choice of finishes to complement both modern and coastal interiors.
Its three streamlined ABS blades are powered by an energy-efficient DC motor that delivers quiet and effective airflow for year-round comfort. The integrated light features a replaceable GX53 globe with selectable colour temperatures and smooth dimming, all controlled via the included rechargeable remote. Suitable for indoor and covered outdoor areas, the alfresco-rated design extends its versatility beyond the home's interior. Wi-Fi adaptability provides the option for smart control integration, making the Climate IV CTC range a practical solution for bedrooms, living spaces and covered outdoor rooms.

**Low Profile**

Low profile fans that fit your space are necessary if your home has low ceilings. Some of these ceiling fans only protrude 19.5 cm from the ceiling, allowing them to sit flush against the ceiling. This makes the space safer for everyone in your house and makes it appear less cluttered and more open.

**DC Motor - Efficient, Cost Saving, and Quiet**

The most energy-efficient ceiling fans on the market right now are DC or direct current fans. The key to their improved airflow and low energy consumption is their motor, which also helps you save money on your electricity bill. Since the motor is small and light, DC ceiling fans have sleek designs that fit better in your interiors and cost just one cent an hour to run. Additionally, they are silent in operation, making them ideal for private spaces in your house like the bedroom. You have a lot of versatility with the speed settings of DC fans, which range from a light breeze to an extremely intense airflow.

**Remote Control**

6-speed rechargeable remote control. *USB-C cord and charger are not included. For instructions on how to pair the remote, please follow the steps in this video: Remote Pairing

**Smart Compatible**

Insert the Lucci Connect Wi-Fi Module (sold separately **-** 216180) into the receiver to activate smart functionalities. Once paired with the Lucci Connect app, you can turn your fan on/off, adjust its speed, set timers, and even create schedules based on the temperature outside.

**Optional Light**

Versatility to use light with included GX53 globe, or use included cap to cover the socket for a no light option. The GX53 globe included has colour changing technology (warm-white, cool-white and daylight), and can be smooth dimmed via the remote control.

**Alfresco Rating**

Suitable for indoor and alfresco areas provided the fan is fully undercover, protected from water, wind, dust, and salt, with a minimum of 2 walls.

**Recommended Room Size**

For rooms between 3m x 3m and 4m x 4m, we recommend a fan between 122cm and 142cm.

**2-Year In-Home + 7-Year Motor Replacement Warranty**

We provide a 2-year in-home warranty and a 7-year motor replacement warranty on all hard-wired Lucci or Fanaway fans that were purchased from 1st October 2022. Plus, if you have your fan purchased or installed by a Beacon Lighting Trade member, we'll extend your in-home warranty on the nominated Lucci or Fanaway fan for an extra 1 year, which means you'll enjoy a 3-year in-home warranty.
