$529.00 (inc GST)

Details

As a modern take on the more traditional ceiling fan, the Climate IV is made from premium aluminium and ABS plastic, making it perfect for indoor and alfresco dining. The small housing for the motor gives the Climate IV a cleaner look while still maintaining the power of a DC fan.
Available in 132cm in white, antique nickel with teak blades, or antique brass with walnut blades.

DC Motor - Efficient, Cost Saving, and Quiet

The most energy-efficient ceiling fans on the market right now are DC, or direct current, fans. The key to their improved airflow and low energy consumption is their motor, which also helps you save money on your electricity bill. Since the motor is small and light, DC ceiling fans have sleek designs that fit better in your interiors and cost just one cent an hour to run.
Additionally, they are silent in operation, making them ideal for private spaces in your house like the bedroom. You have a lot of versatility with the speed settings of DC fans, which range from a light breeze to an extremely intense airflow.

Remote Control

6 speed remote control with natural wind mode. For instructions on how to pair the remote, please follow the steps in this video: Remote Pairing

Optional Light

Versatility to use light with included GX53 globe, or use included cap to cover the socket for a no light option.

Alfresco Rating

Suitable for indoor and alfresco areas provided the fan is fully undercover, protected from water, wind, dust and salt, with a minimum of 2 walls.

Recommended Room Size

For rooms between 3m x 3m and 4m x 4m, we recommend a fan between 122cm and 142cm.
