Coates Pendant collection

Striking a bold line between form and function, the Coates Pendant channels mid-century elegance into a distinctly modern silhouette. Its strong horizontal structure is softened by gently curved heads and a sculptural rods, creating a piece that feels both grounded and expressive. The 6-light flared version offers dynamic symmetry—ideal for anchoring living rooms or open-plan zones—while the 2-light linear format delivers refined proportion over kitchen islands or dining tables.

Every detail of the Coates speaks to thoughtful design: rotatable heads allow for uplighting or downlighting, and integrated Scene Control lets you transition smoothly between cool and warm white with a standard switch. For further ambiance, the pendant is dimmer-compatible—perfect for setting the tone from day to night. A prismatic diffuser softens each beam, reducing glare while enhancing comfort. Offered in aged brass for a nostalgic nod or polished chrome for contemporary crispness, this is vintage inspiration built for today's homes.

TIP:

Maximise flexibility by using Scene Control to set lighting that aligns with the time of day—bright and invigorating in the morning, soft and intimate in the evening—all from your existing switch.
