

Cumulus Small LED Drop Pendant in Brass

SKU: 028238

Details

The Cumulus drop pendant is available in black or brass finishes and brings a sculptural, fluid form to modern interiors. Its distinctive curved profile creates a striking feature when installed individually or grouped together, making it well suited to stairwells, voids or statement lighting arrangements. Designed with an extended 3000mm suspension, the pendant is ideal for high ceilings and large vertical spaces where dramatic lighting installations are desired. Integrated LED technology offers selectable colour temperatures of 3000K, 4000K or 5500K via a toggle switch in the canopy, allowing the light tone to be adjusted to suit the environment. With dimmable functionality and high colour rendering, the Cumulus pendant delivers both visual impact and comfortable illumination. Available in a smaller size for more compact spaces or the large drop for taller voids and architectural installations.
