

Eclipse Maxi Super Slim LED Recessed Colour Switch 90mm Cut Out Downlight in White

SKU: 178274

$19.95 (inc GST)

Details

Designed to complement the Eclipse Maxi range, the Eclipse Maxi Super Slim Downlight provides a consistent appearance throughout the home while offering greater installation flexibility. Featuring an extra-low-profile design and a 90mm cut-out, it is ideal for shallow ceiling cavities, bulkheads or locations where structural beams may prevent a standard downlight from fitting. For low-cavity ceilings, the downlight can also be installed using mounting screws rather than the supplied spring clips, making the super slim particularly useful in restricted installation spaces.

Delivering up to 800 lumens with a wide beam angle, this dimmable downlight provides broad, practical illumination for everyday living spaces.

90mm Cut-Out
Designed with a 90mm cut-out for easy integration into a range of residential ceiling applications.

Selectable Colour Temperature
Choose between warm white, cool white or daylight using the integrated switch on the back of the downlight before installation.

High Colour Rendering
With a CRI of more than 90, the Eclipse Maxi Super Slim delivers clear and natural-looking colour reproduction.

IP44 Rated
IP44 rated after installation for added protection against moisture, making it suitable for a range of interior applications.

IC-4 Rated
The IC-4 rating allows approved building insulation to safely abut and cover the downlight when installed correctly.

5-Year Warranty

Backed by a five-year warranty for added peace of mind.

Specifications

SKU	178274
Colour/Finish	White
