Festoon II 20 Light LED Exterior String Light Kit in Black with Warm White

SKU: 220991

$99.95 (inc GST)

Details

Transform your entertainment area with the much loved Lucci LEDlux festoons string lights. These festoon lights are entirely DIY and made from robust and durable rubber to stop deterioration and stretching over time. The warm white LEDs set the mood right with the right illumination level for comfort and reduced glare. These Festoons have the ability to combine two strands to make longer lengths. There is a 5 meter fly lead distance from the driver to the first light, and then the lights are spaces at 1 meter intervals.

Specifications
