

Fjord Small Dome Pendant in Stone Concrete

SKU: 018168

$399.00 (inc GST)

Details

The Fjord small dome pendant features a cement shade, available in black or stone finishes that highlight the natural texture and subtle speckling within the concrete. The softly curved dome shape creates a grounded, sculptural look that suits modern interiors with natural or earthy material palettes. Designed for use with an E27 globe, the pendant allows flexibility to select your preferred brightness and light tone. The matte concrete surface diffuses light gently beneath the shade, making it ideal for creating comfortable, focused lighting over benches or dining areas. With its compact 300 mm diameter, the Fjord small dome pendant works well as a single feature or installed in multiples over a kitchen island or dining table, bringing a natural, contemporary feel to the space.
