

# Fjord Up/Down Wall Sconce in Black Concrete

SKU: 309299

**Details**

The Fjord wall sconce is a testament to the beauty of materiality and the elegance of simplicity. As part of the larger Fjord collection, this sconce showcases a deep black finish, with naturally formed pitting that lends a unique texture to each piece. Its design embraces the organic imperfections of the material, ensuring that every sconce has its own distinct character with subtle variations in colour and texture. This sconce casts light both upwards and downwards, creating a striking visual effect that enhances the ambience of any space. The dual illumination not only highlights the sconce's own natural beauty but also adds depth and drama to the surrounding area. Embodying a minimalist design ethos, the Fjord wall sconce is an ideal addition to spaces that value clean lines and natural aesthetics. Its understated form and the soothing palette make it a versatile piece that complements a variety of interior styles, from modern to rustic. With each Fjord sconce being unique due to its naturally formed finish, installing one in your home or office is a statement of appreciation for craftsmanship and the allure of nature's own design. Note: Maximum allowable GU10 globe height is 56mm. Taller-than-average GU10 Globes are not compatible with this light fitting.
