

## Flinders Crevice S14d Exterior Wall Sconce in Green

SKU: 231380

### Details

Introducing the Flinders Crevice collection of exterior lights: a blend of style and durability designed for both outdoor and indoor spaces. Featuring a slim, elongated form with softly rounded edges and a recessed centre, Flinders Crevice creates a refined architectural look while allowing the lamp to sit neatly within the ceramic frame. Crafted with a ceramic finish and burnished treatment, these lights offer a contemporary aesthetic in green, white and black options. Built to withstand coastal conditions with an IP65 rating, the Flinders Crevice collection ensures longevity and reliability. Each light comes with a 5-year warranty and is designed for use with an S14D globe, making it a practical choice for enhancing exterior walls, entryways, patios and indoor feature spaces. Embodying an exclusive design inspired by the Australian colour palette, these lights bring both functionality and visual appeal to your surroundings. Each piece in the Flinders Crevice range is crafted from ceramic, a material known for its natural variation in colour and texture. Subtle differences in glaze, tone and surface finish are inherent to the ceramic manufacturing process and contribute to the individual character of each item.
