

Google Nest Battery Doorbell

SKU: 299215

\$329.00 (inc GST)

Details

The Nest Doorbell is the battery-powered video doorbell that works with any home. See what's happening at your door from anywhere, and get alerts about important activity, like a visitor or package delivery. Answer your door in real time, or leave pre-set messages.

No more guessing with smart alerts. The Nest Doorbell can tell the difference between people, packages and vehicles. You can even have it recognise familiar people and tell you who's there. And with Nest Aware, you'll get notified when a familiar face is at the door.

See everything. Unlike other video doorbells, the Nest Doorbell is designed with a vertical field of view. A 3:4 ratio means you can see people from head to toe, and packages left on the ground.

See clearly, day or night. HDR helps with bright, high-contrast light at all times, and night vision gives you a clear image, even in low light and darkness.

Battery-powered to work with any door. No wires means it works with every home, from houses to apartments.

Choose how you chime

Wire-free installation - If you install using battery power, you'll get an alert on your phone and on your Google Assistant-enabled speakers or displays when someone rings the doorbell.

Wired installation - You can also connect the Nest Doorbell to your doorbell wires and hear your existing chime when someone rings the doorbell.

Stay connected. If your Wi-Fi goes down or there's a power outage, Nest Doorbell will automatically store up to one hour of recorded events in its local memory. When things are up and running again, you'll be able to see exactly what happened. And just in case, if someone removes your doorbell without permission, we'll replace it free of charge.

Specifications

SKU	299215
Brand	Google
Globe Quantity	0

Double Insulated	false
Voltage	24V
Warranty	12 months
