

Halo Hybrid Solar/12V/24V 30m Bud Lights in Black

SKU: 221180

$99.95 (inc GST)

Details

The Halo bud light range offers a flexible decorative lighting solution for gardens, patios and outdoor entertaining areas. Featuring 300 extra-warm white LED lights across a 30-metre length, it creates a soft ambient glow that is ideal for year-round outdoor styling and seasonal displays. Halo can operate using the included solar panel, the supplied 12V power supply, or be integrated into compatible 12V and 24V lighting systems. The IP65-rated construction is suitable for outdoor use and coastal environments, while the included remote control provides access to eight lighting modes, dimming functions and timer settings. With its hybrid power options and easy installation, Halo delivers decorative outdoor lighting with the flexibility to suit a wide range of applications.
