

Hartley Up/Down Wall Bracket in Brushed Nickel with Silver Travertine

SKU: 300955

Details

The Hartley wall light combines natural travertine stone with metal detailing, available in natural travertine with aged brass or silver travertine with brushed nickel finishes. The cylindrical stone form highlights the organic texture and natural variation of travertine, ensuring each piece has its own unique character. Designed with two GU10 light sources, the fitting directs light both upward and downward to create a wash of light across the wall. This architectural lighting effect adds depth and atmosphere while providing practical ambient illumination. With its compact proportions and natural materials, the Hartley wall light works well in hallways, beside beds or around fireplace features, complementing modern interiors that incorporate earthy tones and natural stone elements.

Specifications

SKU	300955
