

Haus & Co Tall Pillar Candle in Butter

SKU: 131213

\$16.95 (inc GST)

Details

Curated with intent, Haus & Co brings together a collection of our favourite designers and homewares from Australia and beyond. BTNCL (Pronounced Botanical) lovingly handcraft their collection in Melbourne. Pillar candles are the perfect statement piece for any occasion. For a true statement, pair with the BTNCL pure brass holder (sold separately) or create a focal point by mixing sizes and colours from the collection. BTNCL's signature blend of unscented waxes ensures the perfect, long-lasting burn of up to 10 hours, with minimal drip. Please note: due to BTNCL candles being handmade in small batches, there may be some slight variances in colour and some minor imperfections such as small scratches or air bubbles from the moulding process. this is what makes them all the more unique. Candle Tips: For an even and safe burn, always burn your candle on a heat proof dish, placed on a level and stable surface, away from flammable objects. To ensure longevity, reduce drip and ensure evenness of burn - always trim your wick before burning. Never burn your candle near an open door or window as a draught can not only be dangerous, but will also affect the burn of your candle. Should wax drip on any surface, simply just wait for it to set and then it will easily remove.

Specifications

SKU	131213
Location	Indoor Use Only
Brand	BTNCL
Globe Quantity	0
Double Insulated	false
