

# Holland Wide Pendant in Bronze with Brown Marble

SKU: 012023

$149.00 (inc GST)

**Details**

The Holland pendant pairs a softly rounded metal shade with natural stone detailing for a warm, contemporary look. Available in beige with natural travertine or bronze with brown marble, each finish celebrates the natural variations of the stone. Choose from small and wide sizes to suit different spaces, whether styled individually or grouped together above a kitchen island or dining table. The smaller pendant also works beautifully beside a bed or in a cosy nook. Its simple dome profile directs light downwards while allowing the decorative globe to remain visible below the shade. Holland combines organic materials and an understated form for an effortless addition to modern interiors.
