

Horizon LED CCT Skylight in White

SKU: 189305

$1,295.00 (inc GST)

Details

Bring the sky indoors — sunrise to sunset, on demand.
The Horizon LED CCT Skylight recreates the full arc of natural daylight inside any room — from the warm amber glow of sunrise through crisp midday white to the soft gold of sunset. Engineered in Italy, its 45-degree Rayleigh scattering lens replicates the way sunlight filters through the atmosphere, giving windowless spaces a living, breathing quality no ordinary ceiling light can match.
With colour temperature adjustable from 1600K to 8000K and smooth dimming from 0.1% to 100%, simply controlled via the included remote, the Horizon shifts seamlessly across every mood and moment.

KEY FEATURES

Full-spectrum CCT
1600K–8000K range from candlelight warmth to bright summer daylight

Ultra-smooth dimming
0.1%–100% with no flicker — suitable for photography and sensitive eyes

Remote included
Full control out of the box — no app or hub required

Rayleigh scattering lens
Italian-engineered optic that mimics how sunlight filters through atmosphere

Flush ceiling mount
Clean, recessed finish — suits kitchens, bathrooms, hallways and living rooms

Energy efficient LED
Long-life LED source — no globe replacement needed

INSTALLATION

The Horizon is a hardwired ceiling fixture. Installation must be carried out by a licensed electrician. It is suitable for standard residential ceilings — confirm ceiling cavity depth and cutout dimensions with your electrician prior to purchase. Not rated for outdoor use.

COMMON QUESTIONS

Is this suitable for a bathroom?
This product is rated IP20. Please check the specification sheet before installing in a wet area and check with your electrician regarding zone requirements that apply in Australian bathrooms.

Does it need a separate dimmer switch?
No. Dimming is handled entirely via the included remote — no special wall switch or dimmer module required.

What room is it suited to?
The Horizon Sky Light is purposely designed to project light on an angle that replicates natural sunlight coming from above. This effect is best applied when installed along a wall, allowing the light to project onto it. Perfect for Hallways, Bedrooms, Living rooms, bathrooms and light-locked spaces.

Can I control it from my phone?
The Horizon comes with a dedicated remote. Smart home or app integration is not specified for this model.

Does the globe need replacing?
No. The Horizon uses an integrated LED source with a long rated lifespan — there is no globe to replace.

PRODUCT DIMENSIONS
Overall Length: 650mm
Overall Width: 440mm
Overall Depth: 195mm
Mounting Frame Width (*Width after Installation*): 355mm
Extension from Ceiling: 7mm
Cut out size: 630 x 325mm
Recessable Depth: 181mm
Extension beyond cutout*: 116mm
*(*fitting extends back into the ceiling cavity at a 45° angle)*
