

# Kyber 137cm DC Fan in White with Ash Blades

SKU: 213247

$549.00 (inc GST)

**Details**

The Kyber ceiling fan range features three sculpted ABS blades with sweeping curves and tapered tips, creating a distinctive statement in contemporary interiors and covered outdoor spaces. Available in white, white with ash blades, black and black with koa blades, the range combines a striking design with an integrated light and practical everyday performance. Powered by an energy-efficient DC motor, the Kyber delivers strong airflow with quiet operation and includes a 7-speed remote for convenient control. Coastal-rated construction extends its suitability to covered outdoor environments, while the 137 cm blade span makes it well suited to living areas, large bedrooms and alfresco spaces. The Kyber range balances bold design, reliable performance and everyday functionality.

**DC Motor - Efficient, Cost Saving, and Quiet**

The most energy-efficient ceiling fans on the market right now are DC or direct current, fans. The key to their improved airflow and low energy consumption is their motor, which also helps you save money on your electricity bill. Since the motor is small and light, DC ceiling fans have sleek designs that fit better in your interiors and cost just one cent an hour to run. Additionally, they are silent in operation, making them ideal for private spaces in your house like the bedroom. You have a lot of versatility with the speed settings of DC fans, which range from a light breeze to an extremely intense airflow.

**Remote Control**

7-speed remote control with timer function and natural wind mode included. For instructions on how to pair the remote, please follow the steps in this video: Remote Pairing

The remote's built-in timer lets you set the fan to switch itself on or off after 1 to 12 hours. Drift off with the fan running and let it shut down on its own, or have it start before you arrive home so you walk into a cooler room. It's an easy way to stay comfortable and keep running costs down, without needing to get up or remember to turn the fan off.

**Coastal Rating**

Suitable for indoor, alfresco, and coastal areas provided the fan is fully undercover, protected from water, wind, and dust, with a minimum of 1 wall.

**Recommended Room Size**
For rooms between 3m x 3m and 4m x 4m, we recommend a fan between 122cm and 142cm.
**2-Year In-Home + 7-Year Motor Replacement Warranty**
We provide a 2-year in-home warranty and a 7-year motor replacement warranty on all hard-wired Lucci or Fanaway fans that were purchased from 1st October 2022. Plus, if you have your fan purchased or installed by a Beacon Lighting Trade member, we'll extend your in-home warranty on the nominated Lucci or Fanaway fan for an extra 1 year, which means you'll enjoy a 3-year in-home warranty.
