

LIFX Colour Zones 4.2W Dimmable SES LED Candle Smart Globe in RGB + Full White Spectrum

SKU: 128123

Details

The world's first Polychrome bulb. The candle colour can do so much that you might forget it is the perfect White ambient candlelight. For the entertainers, the flame effect will wow your dinner guests. For parents, entertain the kids with a hypnotic morphing light show, and then fade off during story time. For the experimental, use the paint effect to "draw on" your preferred colours – perhaps throw functional White light into the room and coloured light at the wall as a feature. And for all, this is a great bedside light. If the colour is a playful bonus, the broad range of cool to warm whites will help you get up in the morning, read in the evening, and sleep at night.

Key Features

Endless colour combinations and blended white light

Works with Matter over Wi-Fi

No hub required (when onboarded with the LIFX App)

LIFX SuperColour LEDs = 5x brighter colour*

Broadest white spectrum 1500K - 9000K

Polychrome Technology™ – morph together any combination of colours and create hypnotic light shows. 27 addressable zones per Candle

Custom effects and features. Experience natural, dynamic effects like flicker, designed to mimic the warm light cast from a natural flame

Schedule on-off, fade or colour change for convenience, energy efficiency and security when away from home

Meet Candle Colour

A world-first smart light with Polychrome Technology™. The Candle Colour has 27 customizable zones, billions of colour combinations, plus a huge warm-cool white range. For power users, add endless integrations.

This is your entire starter kit

Because all LIFX lights are WiFi connected, you don't need an accompanying bridge or hub to get started. It's easier than "1-2-3", because it's just "1".

Billions of Colours

Whether it's the calming purple tint, the morning sunrise or gamer green, LIFX boasts the deepest, richest, and most beautiful colours. How? It's all in the LEDs we choose that our competitors don't.

FX + 27 polychrome zones
Create light that looks "fire". Literally. Or like lava, a sunset, a jungle canopy or a melted rainbow in a bottle... Whatever you're into. It's not all play though – for everyday lighting, pick from our ultra-broad industry leading range of whites. How does one tiny bulb do all this? This is part of our Polychrome Technology™ bulb series, which allow for powerful animations, movement and blending of light, all in one compact package.
Designed in Melbourne
Did you know LIFX started in Melbourne in 2012? And they are still based in the creative tech-hub of Cremorne. Their team of in-house Engineers and Product Designers worked passionately on the range of LIFX Smart Globes with the goal of bringing the best and brightest offering of Smart Lighting to Australia, and the rest of the world.
**LIFX colours have tested up to 5x more powerful than other smart brands across flagship products. Visit lifx.com/supercolour for details.*
Compatible with: Matter, Google Home, Apple Home, Alexa, Samsung SmartThings, Home Assistant, Razer Chroma.

Specifications

SKU	128123
