

LIFX SuperColour 7.5W Dimmable 90mm Cut Out LED Smart Downlight with RGB + Full White Spectrum

SKU: 170895

$64.95 (inc GST)

Details

This LIFX Colour Downlight is about redefining your idea of “mood lighting". Once installed, you can use bright whites to invigorate and illuminate your entire workspace. Flip to a bold blue to enhance your creative corner. Fade into lilac to transform your humble bathroom into a high-end spa. Then dim to warm ambers to get ready for bed. And you can do it all with schedules, app control, or voice commands. Now that’s a smart light.
Key Features
Works with Matter over Wi-Fi
No hub required (when onboarded with the LIFX App)
LIFX SuperColour LEDs = 5x brighter colour*
Broadest white spectrum 1500K - 9000K
Designed in Melbourne
A downlight with seriously good colour
LIFX has selected premium LEDs specifically to boost the colour. LIFX has built a proprietary algorithm to actively calibrate colour output. (Ok, yes—we’re nerds.) This means all your LIFX lights will match, bulbs, downlights and lightstrips. Their colour-tech helps us custom mix the broadest white range in smart, helping you work, sleep and relax better.
Rated for safety and flexibility
Rated IC-4 (abutted & covered) and IP65 water resistant for safe use throughout your home. You will have peace of mind when installing into your ceiling and using in bathroom areas.
Bright and efficient
The LIFX Colour Downlight has an output of 800 lumens, the equivalent of a 60 Watt traditional incandescent bulb with the benefit of only 7.5W energy use. LIFX products also have the broadest in-market spectrum of whites ranging from super-warm 1500K to ultra-cool 9000K.
Brighter lumens & CRI for more vivid living
With an impressive 800 lumen count, the Colour Downlight is unbeatable when it comes to illuminating your entire space. And with 90+ CRI, your furniture, decor, and personal items will appear more vivid than they would under incandescent or natural sunlight.

Millions of colours to suit any mood
Instantly change the mood in your room with a massive range of colour options. Light up your space with gentle pinks for calm while you do yoga, vivid purples and greens for parties, or your favourite team's colours for game night.
Designed in Melbourne
Did you know LIFX started in Melbourne in 2012? And they are still based in the creative tech-hub of Cremorne. Their team of in-house Engineers and Product Designers worked passionately on the LIFX Downlight with the goal of bringing the best and brightest offering of Smart Lighting to Australia, and the rest of the world.
**LIFX colours have tested up to 5x more powerful than other smart brands across flagship products. Visit lifx.com/supercolour for details.*
Compatible with: Matter, Google Home, Apple Home, Alexa, Samsung SmartThings, Home Assistant, Razer Chroma.
