

Lorne 500mm IP44 DC Flush Fan with Light in Charcoal

SKU: 216190

$329.00 (inc GST)

Details

The Lorne ceiling fan range combines the appearance of a decorative woven pendant with the comfort and functionality of a ceiling fan. Available in white, natural and charcoal finishes, the range features a woven rattan-look shade that conceals the fan blades, creating a clean, furniture-inspired design suited to relaxed coastal, natural and contemporary interiors.
Its flush-mount profile makes it ideal for smaller rooms, bedrooms, bathrooms and covered outdoor areas where ceiling height is limited. Powered by an energy-efficient DC motor, the Lorne delivers quiet airflow and includes a 6-speed remote for convenient control. Four ES globes (sold separately) provide customisable illumination, allowing you to select the light output and colour temperature that best suits the space. With an IP44 rating, coastal-rated construction and an easy-install design that arrives pre-assembled, the Lorne range offers a practical alternative to a traditional ceiling fan while maintaining the look of a statement light fitting.

Low Profile

Low profile fans that fit your space are necessary if your home has low ceilings. This fan only protrudes 19.5 cm from the ceiling, allowing it to sit flush against the ceiling. This makes the space safer for everyone in your house and makes it appear less cluttered and more open.

DC Motor - Efficient, Cost Saving, and Quiet

The most energy-efficient ceiling fans on the market right now are DC or direct current, fans. The key to their improved airflow and low energy consumption is their motor, which also helps you save money on your electricity bill. Since the motor is small and light, DC ceiling fans have sleek designs that fit better in your interiors and cost just one cent an hour to run.
Additionally, they are silent in operation, making them ideal for private spaces in your house like the bedroom. You have a lot of versatility with the speed settings of DC fans, which range from a light breeze to an extremely intense airflow.

Remote Control

6-speed remote control included. For instructions on how to pair the remote, please follow the steps in this video: Remote Pairing

Integrated Light
Light kit comes included that uses 4 x ES globes (sold separately). NOTE: This product is not dimmable.

Coastal Rating
Suitable for indoor, alfresco, and coastal areas provided the fan is fully undercover, protected from water, wind, and dust, with a minimum of 1 wall.

Ingress Protection Rating
Comes with an IP44 rating, ensuring excellent protection against dust and water for enhanced durability in challenging environments.

Recommended Room Size
For rooms up to 3m x 3m, we recommend a 122cm fan or lower.

Blade Cleaning
Unscrew the cap holding the blades to the motor, then pull the blades out for easy cleaning. Clean every six months for optimal performance.

2-Year In-Home + 7-Year Motor Replacement Warranty
We provide a 2-year in-home warranty and a 7-year motor replacement warranty on all hard-wired Lucci or Fanaway fans that were purchased from 1st October 2022. Plus, if you have your fan purchased or installed by a Beacon Lighting Trade member, we'll extend your in-home warranty on the nominated Lucci or Fanaway fan for an extra 1 year, which means you'll enjoy a 3-year in-home warranty.
