

Lottie Table Lamp with White Ceramic Base and Terracotta Fluted Shade

SKU: 001015

Details

The Lottie table lamp pairs a gloss white ceramic base with a distinctive fluted fabric shade for a playful take on classic bedside lighting. Available with pink, beige, forest or terracotta fabric shades, the tonal colours add personality while remaining easy to style across a range of interiors. The pleated shade introduces texture and softly diffuses the light for a warm, ambient glow. Compact proportions make Lottie ideal for bedside tables, nurseries, kids' rooms or smaller spaces where a decorative accent is needed. The simple ceramic base balances the statement shade, allowing its colour and form to take focus. Lottie is an easy way to introduce colour, texture and character into the home.
