

Lucci 250mm Designer Round Exhaust Fan with 290mm Dia Cut Out in White

SKU: 200270

$109.00 (inc GST)

Details

The Designer Hi-Flow Large Round Exhaust Fan is a sleek and reliable solution for ventilating small to medium-sized bathrooms, laundries, and other humid spaces. Featuring a smooth, modern fascia, it delivers steady airflow to help reduce steam, odours, and excess moisture, creating a fresher indoor environment. The 290mm cut-out suits larger ceiling openings, making it perfect for upgrading or replacing tired fans with a more efficient, updated model. Designed for ease, the plug-and-lead setup supports DIY replacement of like-for-like units where a plug is already installed. A built-in backdraft stopper prevents unwanted air and odours from re-entering the room, and the removable cover allows for easy cleaning and maintenance. Compatible with 150mm ducting (sold separately).

TIP:

For enhanced moisture control, add a run-on timer (sold separately) to keep the fan running after use—helping reduce condensation and the risk of mould. Not sure which fan is best for your space? Speak to our team—we use a handy airflow calculator to help you pick the right model.

Certified Airflow Performance

This fan has been tested to the internationally recognised ISO 5801 standard, ensuring its airflow performance is accurately measured and validated in real-world applications.
