

Lucci 6W Sunset Dimming GU10 Globe in Warm White

SKU: 121755

$20.95 (inc GST)

Details

This Sunset Dimming GU10 Globe delivers both functionality and ambience, offering 650 lumens of Warm White light at full brightness, around 3000 kelvin, then smoothly transitioning to a soft incandescent-like glow at its lowest setting, which is around 1800 kelvin. This makes it perfect for task lighting that shifts into relaxing mood lighting at night.
It has a narrow 38-degree beam angle, providing focused illumination, while the flicker-free LED technology reduces eye strain, making this the perfect premium upgrade for any space.

Specifications
