

Lucci Connect Ergo Smart DC Flush Fan with LED RGB Light in Black

SKU: 216187

$329.00 (inc GST)

Details

The Ergo flush fan combines compact cooling with advanced smart lighting, making it an ideal solution for bedrooms, studies and smaller living spaces. Its low-profile design features a bold circular LED ring with visible fan blades set within the centre, creating a modern look that blends lighting and airflow into a single fitting.

Powered by an energy-efficient DC motor, the Ergo delivers quiet performance while offering full control through the included remote or the Lucci Connect app. The integrated LED light features dimming, selectable white colour temperatures and RGB lighting with custom scenes to help set the mood for any occasion. Voice control compatibility and app connectivity provide convenient smart home integration, allowing you to adjust both lighting and airflow from your smartphone.

Supplied fully assembled for straightforward installation, the Ergo is a versatile all-in-one solution for modern homes seeking comfort, lighting and connected functionality in one compact design.

Low Profile

Low profile fans that fit your space are necessary if your home has low ceilings. This fan only protrudes 19.5 cm from the ceiling, allowing it to sit flush against the ceiling. This makes the space safer for everyone in your house and makes it appear less cluttered and more open.

DC Motor - Efficient, Cost Saving, and Quiet

The most energy-efficient ceiling fans on the market right now are DC or direct current fans. The key to their improved airflow and low energy consumption is their motor, which also helps you save money on your electricity bill. Since the motor is small and light, DC ceiling fans have sleek designs that fit better in your interiors and cost just one cent an hour to run.

Additionally, they are silent in operation, making them ideal for private spaces in your house like the bedroom. You have a lot of versatility with the speed settings of DC fans, which range from a light breeze to an extremely intense airflow.

Remote Control

6-speed remote control included. For instructions on how to pair the remote, please follow the steps in this video: Remote

Pairing

Colour Changing Technology

Change the integrated LED light to Warm White, Cool White, Day Light, or RGB lighting with custom scenes, as well as dim the brightness all via the included remote.

Indoor Rating

Suitable for indoor use only.

Recommended Room Size

For rooms up to 3m x 3m, we recommend a 122cm fan or lower.

Blade Cleaning

Unscrew the cap holding the blades to the motor by turning it clockwise (reverse thread), then pull the blades out for easy cleaning. Clean every six months for optimal performance.

2-Year In-Home + 7-Year Motor Replacement Warranty

We provide a 2-year in-home warranty and a 7-year motor replacement warranty on all hard-wired Lucci Connect fans that were purchased from 1st October 2022. Plus, if you have your fan purchased or installed by a Beacon Lighting Trade member, we'll extend your in-home warranty on the nominated Lucci Connect fan for an extra 1 year, which means you'll enjoy a 3-year in-home warranty.
