

Lucci LED 12V Day/Night Sensor

SKU: 229421

Details

LED 12V day/night sensors, available in black, offer convenient automation for garden lighting. With dimensions of W: 53mm, L: 620mm, H: 40mm, they operate at 12 AC/DC voltage and support LED loads up to 60W. Featuring IP68 waterproof rating and activation at 5-10LUX, these sensors ensure reliable performance in outdoor environments.
Ideal for DIY garden lighting systems, the sensors enable automatic activation of lights at dusk, enhancing outdoor enjoyment. They support plug-and-play integration with our 12V DIY garden system and can also be hard-wired for flexibility. Crafted from durable PVC, these sensors provide essential functionality with ease of installation and maintenance.
