

Lucci Power 200W LED Electrical Rotary Dimmer with Push On/Off with Black and White Dials

SKU: 290916

Details

Upgrade your lighting control system with the versatile Lucci Power 200W LED Electrical Rotary Dimmer, a highly recommended choice for all Lucci dimmable products. Compatible with standard aperture switch plates, this dimmer switch is designed to retrofit to existing switch wall plates with ease.

A trailing edge dimmer that provides stable control of the light fittings on any specific circuit and can handle a maximum LED load of 200W.

The Lucci Power Rotary Dimmer has no minimum load requirement and can be set to a specific dimming percentage, with the ability to dim down to 0%. Suitable for LED drivers only, this dimmer is also compatible with Scene Change via Wall Switch technology, which allows users to adjust the colour temperature of their lighting to create different moods or suit different activities. The switch also has a reset function and other useful features detailed in the instruction manual.

Featuring 4 dial finishes included in the box, (Matte Black, Gloss Black, Matte White, Gloss White), the Lucci Power 200W LED Electrical Rotary Dimmer integrates seamlessly with the Lucci Power Ion, Lucci Power Gravity and Vynco ranges to create a customized and cost-effective lighting system that meets your needs. Also compatible with the MFL Forge Collection.
