Lucci Power Gravity Blank Face Plate in Gloss White

SKU: 299735

Details

The Lucci Power Gravity Blank Face Plate is an economical and practical solution for covering unsightly wall fixtures. With a 13mm depth and 84mm screw centers, it is a common and easy fit for trade professionals. The faceplate is available in matte black and white along with gloss white, and is made with UV-stable and scratch-resistant materials. The flat mounting points make for easy installation on tile, timber, concrete, or brick surfaces. With a 25-year warranty and mounting screws included, the Lucci Power Gravity Blank Face Plate is a reliable and long-lasting solution for covering wall fixtures. Designed to integrate seamlessly with other Gravity components, it offers a practical solution when modifying or simplifying existing installations.
